**Subject:** Meeting and Data?

Ted,

I just met with the PFAS expert who will be joining us at the JBLM PFAS RI TPP #2 on 12/14/2022...

She was asking if we had any plume maps, gradient maps, or maps showing permeability/pathways for the PFAS area (as we know them).

Also, I'd like to set up a very short meet and greet so you can meet her ahead of the TPP... maybe you have some points I didn't make about the data or meeting. I essentially asked for her to review the data, note any irregularities or possible issues with the data, look for areas that should be identified for the next step out, and areas where the data is lacking. She should have a draft document by the 9<sup>th</sup> of December.

Is your calendar up to date... I was thinking Monday as Thursday is somewhat booked, and Friday is use or lose...

Thanks!

Very Respectfully,

---
